Experience

January 2020 to October 2021

I did Freelancing Work as a WordPress Website Designer, Content Creator, Graphics Designer, and SEO

I Worked on Astra Pro WordPress Theme and I design the Custom Layout Website Using Elementor, and WooCommerce for E-commerce.

I Designed Moke-up Box, Posters, and other graphics work using Adobe Photoshop. I Write SEO Articles using Yoast SEO and WordAi Tools.

1. Alihuk.com
2. Tiejet.com

January 2022 to Now

Currently I am doing an Internship as a ReactJS Front End Designer in Aay Works Jaipur. I work on ReactJS, Graph QL, Apex Chart, React Router Dom and Mostly my work is here on Admin Dashboard.

Skills

React JS and Next JS.

I know these JavaScript frameworks. In React JS I can work with props and states. I can also work with React Router Dom. I can also use npm packages like Material UI Table, Apex Chart, and others packages. I can also work with APIs. Currently, I am learning Redux in React JS.

In Next JS I can Create SEO friendly Static Page Website.

HTML, CSS, Bootstrap, TailwindCSS, and Sass

I know these Front End Skills I can design a custom Front End for a Website according to the UI design with responsiveness. and I can also work on **CSS animation** for a smooth experience.

I can make any Website **Fully Responsive** and **SEO Friendly**.

WordPress

I can design many types of websites in WordPress like Hotel Room Booking, Ecommerce, Appointment Booking, and many more. I have good experience in elementor , WooCommerce and custom CSS layout in WordPress

Python and C++

I know these two Programming Languages. I can work with OOPs and basic modules. I am also studying Data Structure using C++ in my BCA

SEO

I can improve and optimize the website and make it SEO-friendly. I can work with Ahrefs, Moz, and other SEO tools.

Projects

My Projects

1. News Website in React JS using News API
